

Inocos

For effective management of PCOS and Infertility

INDICATIONS:

PCOS

Hormonal
imbalance

Insulin
resistance

Oligomenorrhea

Amenorrhea

Hirsutism

Hyperandrogenism

Poor oocyte
quality

Menstrual
irregularities

ROLE OF INGREDIENTS:

MYO INOSITOL:

The essential component of cell membrane leads in signaling of different molecules such as insulin.

Helps in regulating the menstrual cycle and prevents menstrual irregularities.

Improves insulin sensitivity and reduces the symptoms of PCOS.

Improves the quality of oocytes and prevents hormonal imbalances.

Reduces serum insulin, decreases serum testosterone and enhances ovulation.

FOLIC ACID:

Folic acid is essential for cell division and proliferation.

Contributes to healthy pregnancy and prevents birth defects.

It helps to prevent hyperhomocysteinemia that affects fertility and ovulation.

It helps in oocyte maturation.

**Clinically proven formula
