

Risofer Tablet

EASY ABSORPTION

RISOFER[®]

IRON BISGLYCINATE WITH FOLIC ACID

SUPPORTS OPTIMAL BLOOD HEALTH

INDICATIONS:

Iron deficiency Anemia

Pregnancy and lactation

Blood loss

Prenatal and postnatal period

Heavy menstruation

ROLE OF INGREDIENTS:

• IRON BISGLYCINATE:

- It is a chelated and highest absorbable form of iron.
- This novel type of iron is absorbed like an amino acid by the cells of the small intestine without the usual irritation and constipation of other forms.
- It provides a margin of safety that is 125 fold above the provision at maximum tolerable daily intake of other iron salts.
- It does not affect any other nutrients.

• FOLIC ACID:

- Folic acid protects during pregnancy against depression and birth defects.
- It reduces neonatal mortalities from NTDs and is efficacious in treating anemia.
- Folic acid may protect against depression during pregnancy.
