A cluster of green, glossy leaves is positioned behind the pink circle, partially visible on the left and top edges.

**Natural solution
for urinary tract
infections**

Beta Cran

(Sachet)

Natural solution for urinary tract infections

PROPERTIES:

Supports urinary tract health

Rapid relief from pain, burning and urgency

Supports kidney & bladder health

DESCRIPTION:

Betacran is an Ultra Concentrated whole fruit Extract of Cranberry (Standardized to 28.8% 72mg PACs). It is especially recommended for urinary tract infections because it significantly reduces the level of Escherichia coli (E. coli) in the urine. The proven ability of cranberries to fight bacteria is an additional stimulus to consume these fruits. Vitamin C also acidifies the urine.

INDICATIONS:

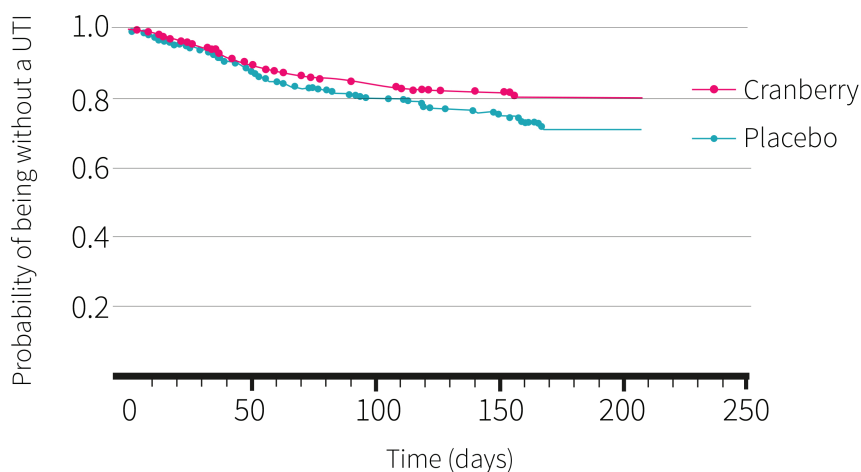

Urinary tract infection

UTIs during pregnancy

UTIs in pre or post Menopause

Bacteriuria

CLINICAL EVIDENCE OF CRANBERRY FOR UTIs:

A statistically significant reduction in the number of UTIs per woman-year was seen in the group consuming the daily cranberry beverage. There were no statistically significant differences in the number of confirmed bacterial infections, or the time to first clinical UTI

ROLE OF INGREDIENTS:

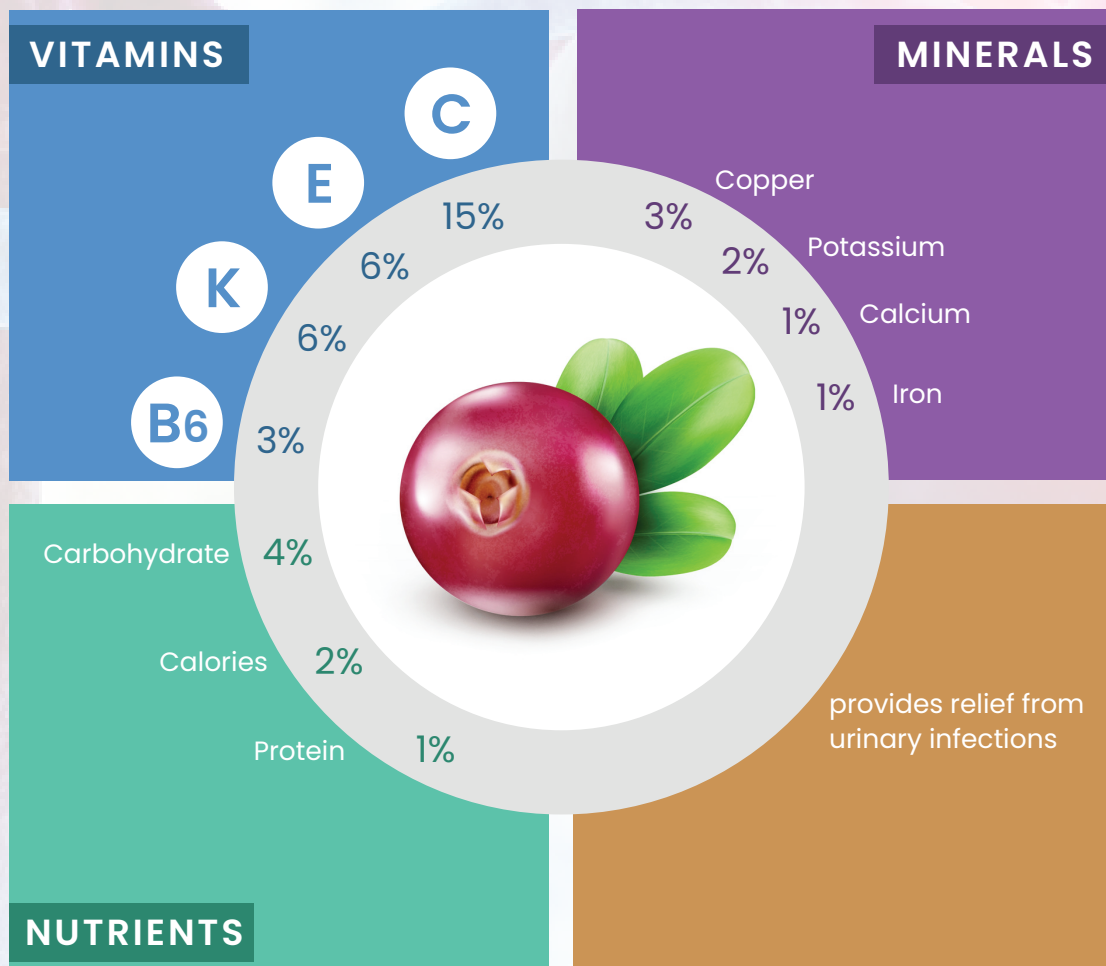

Cranberry extract:

- Cranberry is used in prevention and treatment of urinary tract infection (UTIs). It inhibits the adhesion of type I and P-fimbriated uropathogens to the uroepithelium, thus impairing colonization and subsequent infection.
- It also helps in the neurogenic bladder as well as to deodorize urine in people with urinary incontinence (difficulty in controlling urination), kill germs and reduce fever during UTIs.

Vitamin C:

- Vitamin C is used to prevent infections of the bladder and prostate. It prevents bacteria from growing by making urine more acidic.
- It also contributes to the healthy function of the kidney and urinary tract. It plays a role in the protection against bacteria and viruses.

HEALTH BENEFITS OF CRANBERRY¹

Beta Cran

(Sachet)

Natural solution for urinary tract infections

BENEFITS:

- Prevents UTIs naturally in pregnancy.
- Reduces the frequency of recurring bladder & urinary tract infections.
- Supports a healthy bladder & prevents urinary tract infection.
