# For Men Visfer-M

SACHET

**SUPPORTS MALE FERTILITY**

## DESCRIPTION:

Visfer M sachet is a complete formulation designed to support multiple sperm qualities & contains an effective combination of L-carnitine, Acetyl-L carnitine, citric acid and other essential vitamins and minerals that supports male fertility by producing energy and improving sperm progression and motility. It is rich in antioxidants and improves sperm maturation and morphology.

## INDICATION:

Low energy levels

Low sperm motility

Low sperm count

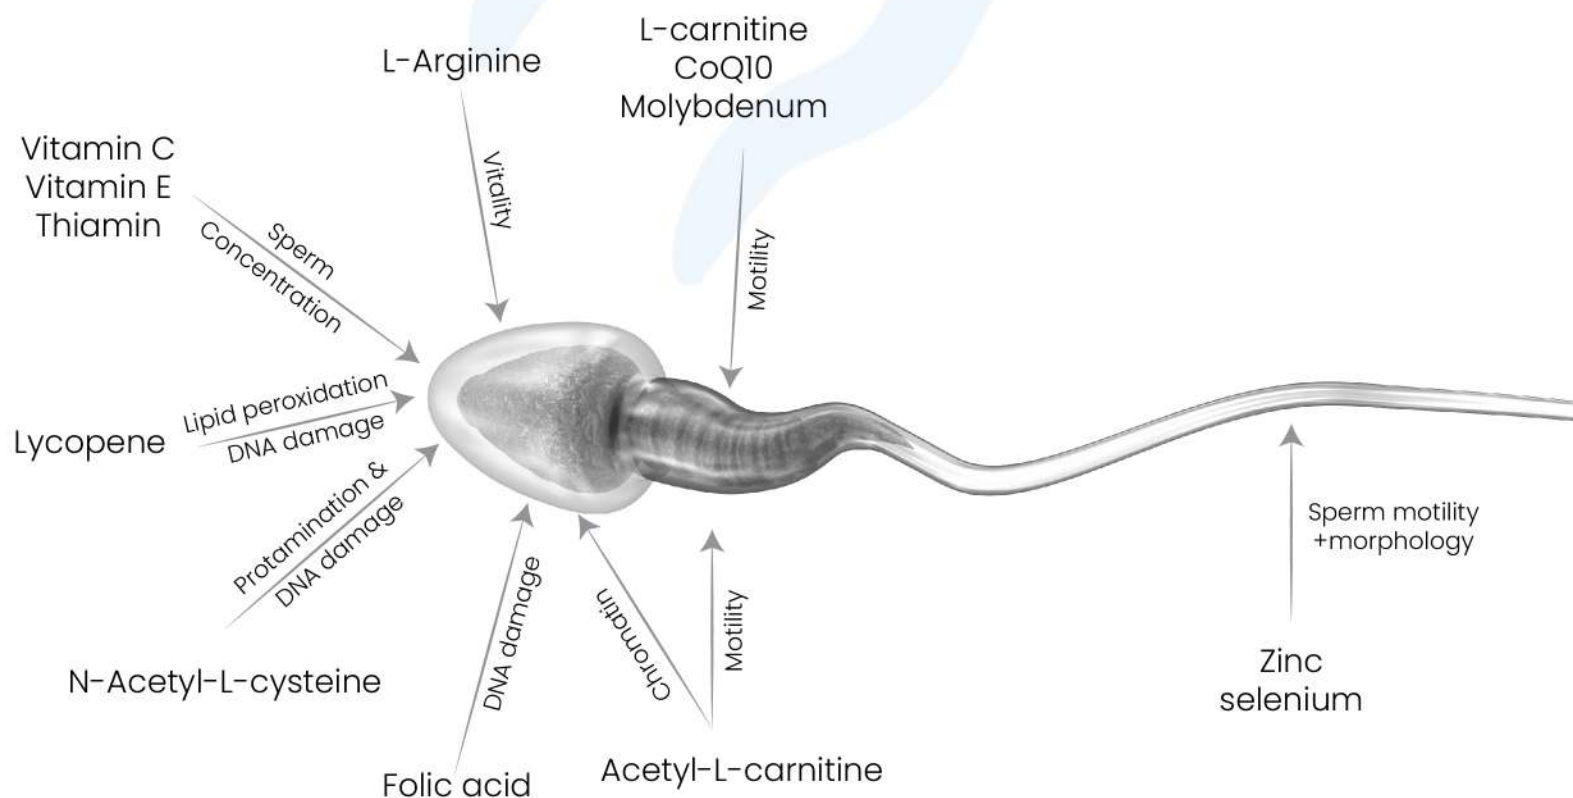

Low testosterone

Mood swings

Depression & anxiety

Fatigue & tiredness

## UTILIZATION OF ANTIOXIDANTS IN MALE FERTILITY:<sup>2</sup>

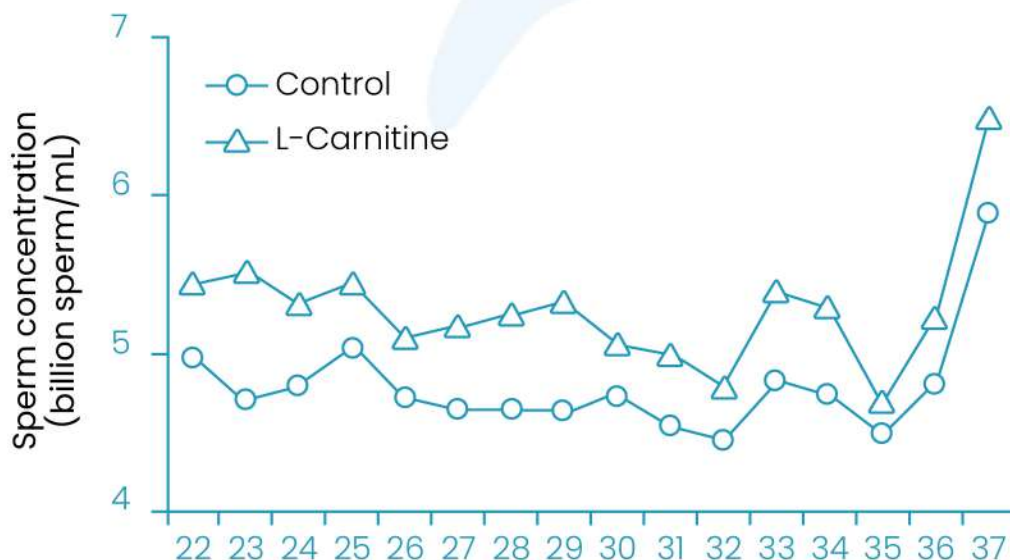

For Men  
**Visfer-M**  
SACHET  
**SUPPORTS MALE FERTILITY**

## ROLE OF INGREDIENTS:

- L-carnitine significantly increases testosterone and helps improve male sexual function.
- Acetyl-L-carnitine helps sperm maturation, enhances their motility, and protects spermatozoa against oxidative damage.
- Citric acid helps with energy metabolism and the absorption of minerals.
- Selenium improves testosterone levels, sperm motility, and sperm quality.
- Vitamin C moderates cortisol levels, thus supports healthy penile function and testosterone levels.
- Zinc improves semen quality in subfertile men and increases testosterone levels.
- Folate pairs with vitamin B12 to help regulate the amount of the amino acid homocysteine in the body.
- Vitamin B12 helps keep the body's blood and nerve cells healthy and helps make DNA

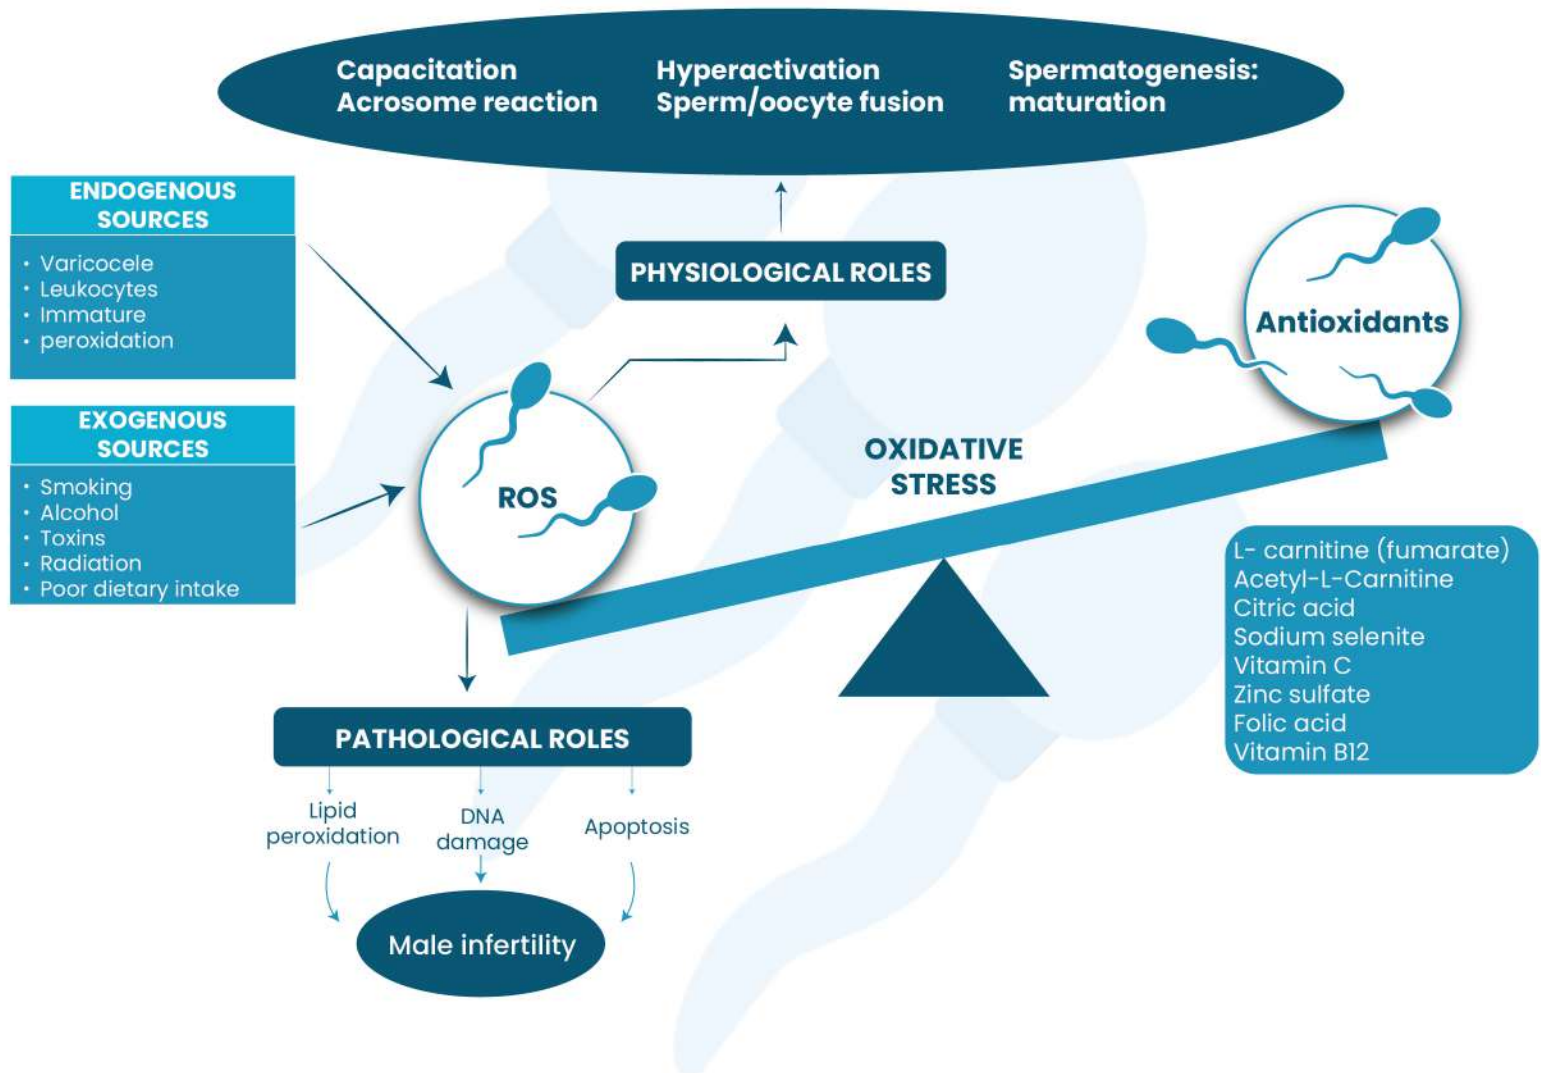

## ROLE OF L-CARNITINE ON SPERM CONCENTRATION:

The consumption of L -carnitine increased weekly sperm concentration from 22 to 37 wk of age (  $P = 0.002$ ) by 10%. Diets were supplemented with 125 ppm of L -carnitine beginning at 1 d of age.

For Men  
**Visfer-M**  
SACHET

SACHET  
**SUPPORTS MALE FERTILITY**

**Antioxidants:**

**An important defense against free radicals**

- Visfer M sachet is a potent prenatal male fertility formulation that targets specific metabolic functions involved in sperm metabolism.
- Antioxidants are the most important support for free radical balance and male fertility

**In men, a balanced L-Carnitine/Acetyl-L-carnitine ratio can help:**

- Maintain seminal plasma levels.
- Maintain sperm health.
- Maintain sperm quality, an essential factor in a couple's fertility.
